# Electronic Medical Records Interoperability

## Agenda

**12:20 – 12:45 PM**    **Arrive at the Eisenhower Executive Office Building**

**1:00 – 1:15 PM**    **Introductory Remarks by Jared Kushner and Seema Verma**
**Laying out the Vision**
*Indian Treaty Room, Room 474*

**1:15 – 2:15 PM**    **Introductions from Participants and Discussion of Vision**
*Indian Treaty Room, Room 474*

**2:15 – 3:45 PM**    **Working Group Sessions**
*Secretary of War Rooms*

Group 1: **Government's role**: What actions can CMS/ONC/HHS take to encourage interoperability (e.g., definition of meaningful use, information blocking, etc.)? What timeframe is realistic based on these actions and how can we accelerate that timeframe?

Group 2: **Technical standards and authentication**: What is needed for full industry support, alignment, and adoption? What approaches/technologies can we use to verify identities (e.g., fingerprint scanning)? Will this vary by vendor or provider?

Group 3: **Patient and physician engagement**: How do we focus the solution to encourage participation (e.g., campaign around demand) and overcome obstacles, and address any issues such as HIPAA compliance?

Group 4: **Public/private partnership**: How do we encourage private sector innovation? Can the government help to jump start with claims or other data? Who do we need to have on board, and how do we best engage with the broadest possible group?

**3:45 – 4:00 PM**    **Break**

**4:00 – 4:15 PM**    **Remarks from Acting Secretary Eric Hargan**
*Eisenhower Executive Office Building, Room 350*

**4:15 – 5:00PM**    **Summary of Discussion and Next Steps**
*Eisenhower Executive Office Building, Room 350*
